Dear Friend,

A letterhead refers to the heading at the top of a sheet of letter paper. It usually consists of a name and an address, or a logo. This often appears in letters created by companies and individuals for communicating messages, whether it's within the team, business partners, or with clients.

Letterheads are important branding tools as well, as they are sent out to a wide audience. They can set the tone for messages while showcasing your company's expertise and professionalism. This makes it important for you to create a letterhead that captures your brand's identity while presenting important details. It helps to create a template that you can use for different occasions, from inter-office memos to customer correspondences.

Respectfully,

RAYE KIMBERLIN
